

Play with Docker -

<https://labs.play-with-docker.com/>

May ask you to login -> So sign up on <https://hub.docker.com/> and Create a user id
Use the same here to login.

Click Start button

It will launch a session for you for 4 hours. It is completely free.
Very good for beginners:

Click on Add new instance:

03:58:12

CLOSE SESSION
